Software Engineer

Experienced Software Engineer (Fullstack) with hands-on ownership across frontend, backend, and platform operations. At Pinpoint Global, I design and deliver production systems spanning Next.js applications, TypeScript / Express APIs, headless Strapi CMS apps, real-time event flows, and cloud-integrated file / notification pipelines. I focus on building secure, maintainable, and business-aligned software that scales from internal operations to customer-facing products.

Core Competencies

- Fullstack JavaScript/TypeScript (React, Next.js, Node.js, Express)
- API & Backend System Design
- Authentication, Authorization & Security Controls
- Real-Time + Queue-Based Architectures (Socket.io, BullMQ, Redis)
- Data/Workflow Modeling & Operational Tooling
- Deployment, Hosting, DNS & Cloud Platform Operations

Experience

Pinpoint Global | Abuja (Hybrid) **Jul 2025 – Present**

Software Engineer

- Architected and delivered a multi-application ecosystem: Next.js public platforms, a React/Next.js admin console, and a TypeScript/Express backend supporting core operational workflows.
- Implemented end-to-end business domains including billboard inventory, booking lifecycles, customer/business management, and content operations with validation, permissions, and audit trails.
- Engineered real-time and asynchronous infrastructure (Socket.io + BullMQ) to support live operational updates, reliable notification delivery, and background job processing.
- Owned production reliability across application and infrastructure layers, including secure file-upload pipelines, API hardening, and hosting/DNS/Cloudflare administration.

Smuv Legacy | Nigeria (Remote) **Aug 2024 – Jul 2025**

React Frontend Developer

- Currently spearheading the development of ZedApp Web, the web counterpart of our mobile app, ZedApp.
- Led the complete rebuild of the admin dashboard in sync with a new backend and mobile app, ensuring scalability and performance.

- Integrated sockets for real-time data streaming, allowing instant updates for fast-changing financial metrics.
- Contributed to a 50% increase in user base within two months post-launch, as the mobile app reached #1 on the App Store's finance chart in the region.

Ayika | Nigeria (Remote) **Mar 2024 – Dec 2024**

React Native Mobile Developer

- Developed mobile applications for connecting service providers to clients using React Native and TypeScript.
- Enhanced efficiency and responsiveness by utilizing Nativewind for styling, ensuring a consistent user experience, and reducing styling issues by 40%.
- Seamlessly integrated backend services with mobile apps through REST and GraphQL APIs, providing real-time data updates and improving overall app functionality.
- Implemented strong security protocols to safeguard user data, resulting in a 50% reduction in security incidents and enhancing user confidence.

Myllash | Abuja (Remote) **Sep 2023 – Jul 2024**

Software Engineer

- Developed multiple apps using React, TailwindCSS, ZegoCloud, Paystack, OpenAI API, Express, and Firebase, facilitating real-time consultations and managing over 200 real estate plot reservations.
- Deployed applications on AWS under a primary domain and multiple subdomains, ensuring accessibility and scalability by implementing CI/CD pipelines with GitHub Actions, reducing manual deployment efforts by 80%.
- Created Express apps to expose endpoints for tasks like sending emails or routing requests, improving system functionality and communication between services.

Projects

Pinpoint Global Landing Page **NextJS | Typescript | TailwindCSS | Motion**

https://pinpoint.ng

- Full company website befitting a creative company.

OJ Multimedia Website **NextJS | Typescript | TailwindCSS | Motion**

https://www.ojmultimedia.com

- Full blog / community platform

Crelyst Company Website **NextJS | Typescript | TailwindCSS | Motion | Firebase**

https://www.crelyst.com.ng

- Company website with admin section for a branding company.

Education

Federal University of Technology Minna

Bachelor's Degree in Electrical/Electronics Engineering

Certification

React Learning Program

Andela | 2023

Backend Web Development

Kodecamp 3.0 | 2023

Frontend Web Development

Kodecamp 2.0 | 2022

Soft Skills Training

Jobberman | 2020
